

SPONSOR PROSPECTUS

Advancing the Science of Prehospital Trauma Care

Featuring a renowned cast of international experts, this 1-day educational event, developed by the creators of PHTLS and held in conjunction with EMS World Expo, provides the latest tips, strategies and best practices attendees of all levels can use in their daily care. This year's symposium will examine:

- Hemorrhage control and opening airways in active shooter and mass casualty scenarios
- Pediatric and geriatric trauma care
- The future of trauma care, from TXA to trauma in space
- More lessons from the battlefield

World Trauma Symposium is a powerful and unique opportunity to reach your target market and interact with influential decision makers and thought leaders in pre-hospital trauma care.
