FOR IMMEDIATE RELEASE

### FIND OR POST JOBS ON THE NEW EMS JOB CENTER

Clinton, Miss. — A new EMS Job Center site, [www.emsjobcenter.com](http://www.emsjobcenter.com), has just been launched to help EMS professionals connect to the thousands of EMS jobs available throughout the country. The site provides a highly robust career center for all types of EMS positions, with over 14,000 continuously updated jobs. The site is hosted by EMS World, in partnership with the National Association of Emergency Medical Technicians (NAEMT).

Free of charge, job seekers may view and apply for jobs, post an anonymous résumé or curriculum vitae, and create personal Jobseeker Accounts that can help them find jobs, manage their résumés and set up job alerts.

Employers may create Employer Accounts, view résumés and post jobs for a special low introductory price of \$100 per listing.

“As the association that represents the professional interests of EMS practitioners, we are pleased to partner with EMS World to offer this key tool in helping EMS professionals build their careers,” says NAEMT President Connie Meyer. “This is yet another way in which NAEMT continues to support EMS professionals during each phase of their careers. I encourage both EMS employers and job seekers to visit [www.emsjobcenter.com](http://www.emsjobcenter.com) to see everything the site has to offer.”

More than 32,000 members strong, NAEMT is the nation’s only professional association representing all EMS practitioners, including paramedics, emergency medical technicians, first responders and other professionals working in pre-hospital emergency medicine. NAEMT members work in all sectors of EMS, including government service agencies, fire departments, hospital-based ambulance services, private companies, industrial and special operations settings, and in the military.
