

CONGRESS ENACTS LAWS THAT IMPACT EMS.

Help us ensure that **MEMBERS OF CONGRESS** Understand EMS!

Please support EMS On The Hill Day and help advance the EMS profession!

Congress enacts laws that impact EMS. All 535 members of Congress - Democrats, Republicans and Independents alike - must understand EMS if they are to create legislation in the best interest of our profession and the patients we serve.

On April 25, 2017, our nation's EMS community will head to Washington, D.C., to participate in the largest annual EMS advocacy event – EMS On The Hill Day. Our goal is to visit all members of Congress to ask for their support on legislation that will improve our ability to serve our patients and communities.

Your financial support will help drive participation of EMS professionals from across the country and from all delivery models.
