Make Your Patients Healthy and Your ED Happy with Community Paramedicine

For organizations assuming population health risk, reducing the rates of avoidable ED visits, avoidable admissions, and readmissions are top priorities. However, few organizations have all the staff they need to engage patients and support robust care management. Community paramedics can help extend the care team to achieve these system goals.

Overworked staff... ...and gaps in Crowded EDs and high rates of care readmissions can exacerbate the challenges your health 5 system is facing. ...poor care coordination...
