

Dear Members of the Committee,

I am writing in strong support of Brian Stennett for the position of NAEMT Great Plains Regional Director.

I have had the privilege of working alongside Brian for the past six years at the Palatine Fire Department. During that time, I've had the opportunity to learn from him both on the ambulance and in the station, and I can honestly say he has made me a better paramedic.

Brian is one of the most knowledgeable EMS professionals I've ever worked with. When someone has a difficult patient, a protocol question, or just needs guidance on anything EMS-related, Brian is the person everyone goes to. He's incredibly intelligent, but what really stands out is his willingness to teach. He takes the time to explain the "why" behind things, and he genuinely wants the people around him to succeed. I know I've personally become a better provider because of his mentorship.

Beyond his clinical knowledge, Brian is the kind of leader people naturally respect. He has an outstanding personality, is approachable, and treats everyone with professionalism and kindness. He cares deeply about his coworkers and is always willing to help, whether that's mentoring a newer member or offering advice to someone with years on the job. That same level of care carries over to his patients, who consistently receive compassionate, high-quality care.

I have no doubt Brian would bring those same qualities to the NAEMT Board. He is passionate about advancing EMS, respected by the people who work alongside him every day, and committed to making our profession better. I can't think of anyone who is more qualified or better suited for this role.

I strongly encourage you to support Brian Stennett for Great Plains Regional Director. I know he will represent the region, NAEMT, and the EMS profession with integrity, professionalism, and dedication.

Thank you for your time and consideration.

Sincerely,
