# Improve Patient Outcomes With Comprehensive, Evidence-Based Content

NOW WITH AN ONLINE COMPONENT!

The only textbook approved for use by NAEMT's Advanced Medical Life Support course, **AMLS: Advanced Medical Life Support** provides comprehensive, evidence-based coverage of basic and advanced concepts with an emphasis on critical thinking, leading to better outcomes for patients.

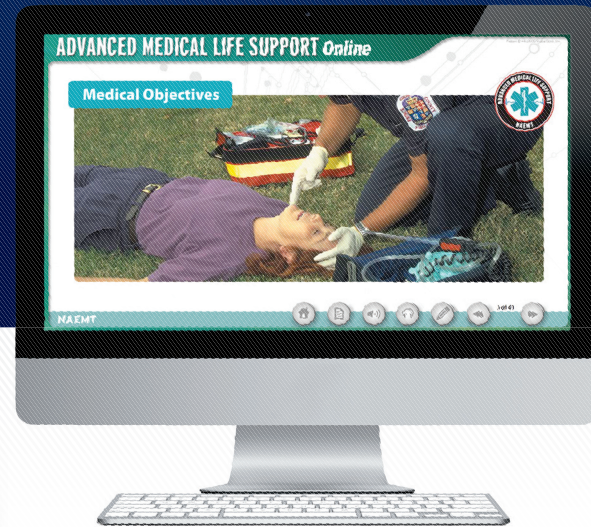

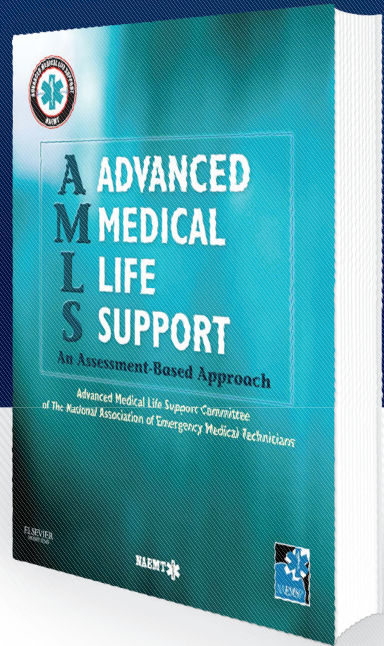

To Become an AMLS Instructor, contact NAEMT at 1-800-346-2368.

# The First EMS Course to Address How to Assess and Manage Common Medical Crises

The **AMLS** course emphasizes the use of scene size-up, history, interactive group discussion on potential treatment strategies, and physical exam to systematically rule out and consider possibilities and probabilities in treating patients' medical crises.

The course offers an initial assessment-based approach that progresses to a diagnostic-based approach to quickly develop the best treatment plan.

NOW WITH AN ONLINE COMPONENT!

## AMLS Expands Into an Online Learning Environment

Today's EMS practitioners need to assess their patients swiftly and accurately. **AMLS Online** offers both a powerful assessment tool and valuable experience to EMS practitioners.

The cornerstone of **AMLS Online** is the AMLS Assessment Pathway, a systematic assessment tool that enables EMS practitioners to diagnose medical patients with urgent accuracy. Each of the eight modules of **AMLS Online** includes interactive patient scenarios where EMS practitioners can apply the AMLS Assessment Pathway and gain experience in a convenient online environment.

In the interactive patient scenarios, EMS practitioners will:

- Be at the patient's side from arrival on scene to delivery to the hospital
- Assess, review, and discern the possible diagnosis for the patient
- Choose the next step to take on the AMLS Assessment Pathway
- Confirm the final diagnosis and provide ongoing prehospital management of the patient

**AMLS Online** is available in two formats: as standalone continuing education or as part of a 16-hour hybrid course. The standalone 8-hour continuing education content is designed for independent learners and AMLS cards will not be issued. The 16-hour hybrid course includes 8 hours of online content followed by 8 hours onsite for skill stations and does offer an AMLS card.

## Learn more about the **AMLS** course!

NAEMT's updated AMLS course features interactive and exciting additions to **AMLS**, including a newly designed AMLS Assessment Pathway, new book chapters, and new content, including video scenario course components. All content is based on the new textbook and instructor resources.

In addition, the textbook is now available in an eBook format!

AMLS IS A 16-HOUR, TWO-DAY PROGRAM. THE COURSE CONSISTS OF:

- ✔ Interactive Lectures
- ✔ Teaching Stations
- ✔ Evaluation Stations

**AMLS** is endorsed by the National Association of EMS Physicians (NAEMSP). It is accredited by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS) and is recognized by the National Registry of EMTs (NREMT).

Students who successfully complete the **AMLS** course will receive a certificate of completion that is valid for four years.
